

Who is ID Energy Group?

ID Energy Group is a second-generation family company founded in 2008 that is specialised in the photovoltaic energy sector.

Why is SEV the main power supplier in the Faroe Islands?

SEV is the main power supplier in the Faroe Islands. We operate on 17 of the 18 islands that constitute the Faroe Islands. Isolated in the North Atlantic Ocean, the Faroe Islands need to be self sufficient in terms of electricity generation as the Faroese electrical grid is not interconnected to neighbouring countries.

How is energy produced in the Faroe Islands?

In the Faroe Islands, energy is produced primarily from hydro and wind power, with oil products being the main energy source. Mostly consumed by fishing vessels and sea transport.

What is the largest hydroelectric power station in the Faroe Islands?

The Eið Hydroelectric Power Station (Faroese: Eiðisverki) is the largest hydroelectric power station in the Faroe Islands. It stands below a dam on Lake Eið (elevation 129 to 149 meters or 423 to 489 feet) on the island of Eysturoy.

Who owns ID Energy Group's share capital?

Pangram Capital, a venture capital firm managed by Spain-based Quadriga Asset Managers SGIIC, and Portugal's Growth Partners Capital, will invest the amount in several phases, acquiring a 10% stake in ID Energy Group's share capital.

What makes ID Energy Group unique?

In addition to a renewed image, ID Energy Group upholds its commitment to make a positive contribution to society and the planet through the sustainability inherent to its activity, and reaffirms its values: expertise, agility, flexibility, honesty, improvement, and innovation.
