

# Ihs markit energy storage Bahrain

What is the IHS Markit energy storage service?

Energy storage is at the heart of this transition enabling sector-coupling. The IHS Markit Energy Storage Service is a premium service, which provides clients with a deep and comprehensive understanding of the global energy storage industry. The service provides clients with frequently updated and very granular data and analysis.

What is IHS Markit?

Leveraging this unique position in the energy storage industry, IHS Markit will help clients maximise opportunities and anticipate future trends in this rapidly growing market. The largest dedicated energy storage database globally with individual project level data for more than 3,500 projects.

How does IHS Markit rank system integrators?

As the chart below shows, IHS Markit surveyed dozens of leading system integrators and produced rankings based on metrics including installed and planned projects by megawatt. While the idea of a top 10 ranking is in itself interesting, what could be even more illuminating is what IHS Markit's team learned along the way.

Does IHS Markit make a warranty?

IHS Markit makes no warranty, expressed or implied, as to the accuracy, completeness, or timeliness of any information in this presentation, and shall not in any way be liable to any recipient for any inaccuracies or omissions.

Can I use the IHS Markit logo?

Any unauthorized use, disclosure, reproduction, or dissemination, in full or in part, in any media or by any means, without the prior written permission of IHS Markit Ltd. or any of its affiliates ("IHS Markit") is strictly prohibited. IHS Markit owns all IHS Markit logos and trade names contained in this presentation that are subject to license.

What is the potential for energy storage in the Middle East?

There is increasing high-level interest in the potential for energy storage in the Middle East, with grid-connected systems forecast to reach 1.8GW in the region by 2025, according to I.H.S Markit.

IHS Markit predicts that 3.8 GW of storage colocated with solar will be completed in 2021 compared with 0.9 GW in 2020. IHS Markit predicts that energy storage colocated with solar ...

A 20MW / 18MWh containerised battery energy storage solution in Switzerland, which went online late last year. IHS Markit predicts that while the US will dominate this year and the Asia-Pacific region will rapidly grow market ...

## Ihs markit energy storage Bahrain

Back in October last year, IHS Markit forecast that 2021 would be a year with more than 12GW of battery storage installations worldwide, with the market to exceed 30GW by 2030. System integrators have unquestionably ...
