Jamaica saft batteries

Are SAFT Batteries safe?

For over 100 years, Saft's longer-lasting batteries and systems have provided critical safety applications, back-up power and propulsion for our customers. As a leading battery company, Saft's innovative, safe, and reliable technology delivers high performance on land, at sea, in the air, and in space.

Who is Saft battery?

For more than 100 years, Saft has been specializing in advanced-technology battery solutions for industry, in space, at sea, in the air and on land in remote and harsh environments from the Arctic Circle to the Sahara Desert. Today, Saft is a wholly-owned subsidiary of Total Energies.

What are SAFT Batteries used for?

Whether it be for aerospace or transportation, telecom & networks or oil & gas, health or energy utilities, Saft batteries are used for numerous applications and on all continents. From the Arctic Circle to the Sahara Desert, or within NASA and European Space Agency vessels, we provide state-of-the-art batteries and battery systems.

How many battery designs does Saft produce?

At Saft,we produce over 400different battery designs to suit virtually every requirement,each optimized for energy and power,guaranteeing integration with the electrical architecture of all fixed-wing and helicopter aircraft - even drones.

Are SAFT Batteries eco-friendly?

Saft operates the only plant in the world that produces nickel-cadmium batteries incorporating metals that have been reclaimed on site from spent batteries, reducing their eco-footprint.

Are Sunica batteries reliable?

Ready and reliable, even in challenging conditions Sunica. plus is the perfect solution for remote installations that rely on power generation such as solar panels, wind-turbines and diesel generators. These nickel batteries can be used under the most difficult environmental conditions.

Our toolkit for any Ni-Cd aircraft battery pack (download the datasheet 22095-2-0907 below) has everything needed for the standard maintenance of a Saft Ni-Cd aircraft battery, including a universal vent wrench, equalizing resistors, syringe, cell extraction wrench, and nozzles.

In accordance with the provisions of the personal data protection regulation, Saft Groupe SAS as data controller will process your data for the purposes of providing the services and for its legitimate interest. Any mandatory fields are marked with an asterisk.

Saft LS26500BA Lithium Battery 3.6V 7300mAh Features. Product Type: Non-Rechargeable Lithium Battery; Cell Size: 26500; Output Voltage: 3.6 VDC; Capacity: 7300 mAh; Chemistry: Lithium Thionyl Chloride (ER/TL/LS) Termination: Button Top; Overview. Suitable for 6135-01-435-5558, 6EW1-000-7AA, LS26500, LS26500BA, NSN 6135-01-435-5558, Saft LS26500BA.

Saft presents a new 28-volt lithium-ion battery for back-up and powerful engine starting for business jets and helicopters. This lithium-ion battery is more compact, lighter, and offers greater energy density to help reduce CO2 emissions.
