

1 ?· Romania: Funds for battery storage projects, major solar+storage site comes online, progress on 1 GW pumped storage site In its first, the Romanian government has allocated EU funds for two major battery energy storage projects via its National Recovery and Resilience Plan. A utility-scale solar-plus-storage site in the country"s northwest has ...

Earlier this week, Energy-Storage.news reported that Sungrow will supply a 638MWh DC-coupled BESS solution to a solar PV plant in Chile for Engie"s regional subsidiary. The manufacturer has recently launched its latest iteration of grid-scale and industrial liquid cooled BESS solutions.

Energy-Storage.news" publisher Solar Media will host the 6th Energy Storage Summit USA, 19-20 March 2024 in Austin, Texas. Featuring a packed programme of panels, presentations and fireside chats from industry leaders focusing on accelerating the market for energy storage across the country. For more information, go to the website.

Dive Brief: Tesla third-quarter energy storage deployments increased 75% year over year to reach 6.9 GWh, the company said Wednesday in its Q3 2024 earnings update. The company is on track to more ...

Azerbaijan, which is hosting this year"s COP29 UN summit, this week announced 14 climate initiatives it hopes countries will sign up to, including one to promote energy storage and electric grids.. Governments are being asked by the COP29 presidency to back a pledge to increase global energy storage capacity six times above 2022 levels, reaching 1,500 ...

In June 2024, Sungrow deliberately combusted 10 MWh of its PowerTitan 1.0 liquid-cooled battery energy storage system, becoming the first company globally to conduct a large scale burn test on an energy storage system. Low Carbon is in the early stages of developing proposals for a new solar and ...

By Ben Shrager & Nyla Khan . How can innovation drive down the cost of emerging long duration energy storage technologies? Learn the answer to this question and more in the latest report by DOE"s Office of Electricity (OE) called, "Achieving the Promise of Low Cost Long Duration Energy storage," part of the Office"s efforts to support the Long Duration ...

Tesla"s energy storage business is booming, and it is just beginning. ... is on track to start its first shipment in Q1 2025. ... Be sure to check out our homepage for all the latest news, and ...

Register today to stay up-to-date with the latest news. Newsletters. Energy News Weekly A weekly look at the energy landscape for those interested in clean energy and how it plays into the fight against climate change. ... Massachusetts" clean peak incentive puts battery storage project on track

The bidding volume of energy storage systems (including energy storage batteries and battery systems) was 33.8GWh, and the average bid price of two-hour energy storage systems (excluding users) was R1.33/Wh, which was 14% lower than the average price level of last year and 25% lower than that of January this year.

Peak Energy, a U.S.-based company developing low-cost, giga-scale energy storage technology for the grid, announced it has secured its \$55M Series A to launch full-scale production of its proven sodium-ion battery technology. Xora Innovation, an Early-Stage deep tech investing platform of Temasek, led the round, with significant participation from existing investor Eclipse, ...

6 ???· Arizona's largest energy storage project closes \$513 million in financing In the USA, the 1,200 MWh Papago Storage project will dispatch enough power to serve 244,000 homes for four hours a day with the e-Storage ...

Register today to stay up-to-date with the latest news. Newsletters. Energy News Weekly A weekly look at the energy landscape for those interested in clean energy and how it plays into the fight against climate change. ... Pruitt's study found that if 8,500 MW of energy storage were deployed between 2030 and 2049, Illinois customers could see ...

According to the latest forecast from Wood Mackenzie, the global energy storage market (excluding pumped hydro) is on track to reach 159 GW/358 GWh by the of 2024 and grow by more than 600% by 2033, with nearly 1 TW of new capacity expected to come online.

2 ???· Arizona's largest energy storage project closes \$513 million in financing In the USA, the 1,200 MWh Papago Storage project will dispatch enough power to serve 244,000 homes for four hours a day with the e-Storage SolBank high-cycle lithium-ferro-phosphate battery energy storage solution. Recurrent Energy, a subsidiary of Canadian Solar Inc ...

From demand forecasts to new technologies, here's the latest news in the energy storage market. Energy storage technology is a critical tool to balance electricity supply and demand, supporting the transition to renewable ...
