

How to store a lithium ion battery?

Batteries must always be charged at a temperature above 5°C. You do not necessarily need to charge batteries before storage - two LEDs should be lit when you put your lithium-ion battery away. It should also be stored in a dry place at a temperature between -10°C and +50°C. Outdoor storage is not recommended.

How should Li ion batteries be stored?

Li ion batteries should be stored in a cool, dry and well-ventilated area that is away from direct sunlight and any heat or ignition sources. You must ensure that your storage area is always kept at a stable temperature -- ideally between 5 - 20°C.

What is a safe temperature for a lithium ion battery?

While those are safe ambient air temperatures, the internal temperature of a lithium-ion battery is safe at ranges from -40°C (-20°F) to 140°C (60°F). So if you want to learn all about the safe ranges of temperatures for lithium-ion batteries, then this article is for you. Let's get right into it! What is a Lithium Battery?

How does lithium ion battery storage temperature affect battery performance?

In the simplest of terms, the lithium ion battery storage temperature has a direct effect on the chemical reaction within the battery cell. Very low temperatures can produce a reduction in the energy and power capabilities of lithium-ion batteries.

Are lithium-ion batteries safe to use in Australia?

The Australian Dangerous Goods Code (ADGC), issued by the National Transport Commission, requires that all non-prototype lithium-ion batteries are tested in accordance with the UN Manual of Tests and Criteria (ST/SG/AC.10/11) Part II Section 38.3 Lithium metal and Lithium-ion batteries (commonly referred to as UN 38.3).

How long does a lithium ion battery last?

The Ultimate Handbook is your complete guide to safe storage. The average lifecycle of a lithium-ion battery is around 300 to 500 charge and discharge cycles. However, the age of the battery, the temperature at which it is kept, and how cycling occurs can decrease battery performance.
