Malta's Thermo-Electric Energy Storage is cost-effective, grid-scale technology. It collects and stores energy for long durations to feed the growing power demands of our electricity-hungry world and enable reliable integration of renewable resources. Energy can be stored from any power generation source in any location.

Premium battery, PEC distributes only high quality batteries serving to customer at best. VRLA batteries are a reliable and efficient source of power, offering long-lasting performance and minimal maintenance requirements. OUR SERVICES. PEC Technology (Thailand) Co., Ltd. has been founded since 1995. We are providing high quality service as ...

In combination with the extended range of PEC test equipment, LifeTest supports the many specific functionalities required in battery testing labs. Drive cycle simulations (FUDS, DST...), thermal performance tests, high speed pulse tests (HPPT), life cycle tests, accelerated ageing tests and internal resistance measurement tests can be easily ...

Malta's innovative thermo-electric energy storage system represents a flexible, low-cost, and expandable utility-scale solution for storing energy over long durations at high efficiency. The system is comprised of conventional components and abundant raw materials - steel, air, salt, and commodity liquids.
