As a part of the 1996 resettlement agreement, a Phase I resettlement program was initiated in 1998. The United States Department of Energy, the Rongelap Atoll Local Government, and the Republic of the Marshall Islands have since signed a Memorandum of Understanding (MOU, 1999) outlining shared provisions in support of resettlement.

Energy storage is of particular interest to large energy-intensive businesses, especially those who need to ensure electricity reliability and availability. For corporations operating in markets with unreliable grid infrastructure or in remote environments, it can also help eliminate the need to rely on backup generators which often run on diesel.
