

Mauritius solar and electric

Is Mauritius launching a solar PV system?

Mauritius' state-owned electric utility, the Central Electricity Board (CEB) has opened two schemes to drive the deployment of a total of 20 MW of household and commercial solar PV systems, with half of it linked to the home and the rest for charging of electric vehicles (EVs).

Why is Mauritius becoming a solar-powered nation?

The installed solar power capacity in the nation has surpassed 100 MW. The significant breakthroughs made in solar PV technology have been the primary force behind Mauritius' transformation into a solar-powered nation. Efficiency, cost-effectiveness, and environmental friendliness have all significantly increased with solar PV technology over time.

Does Mauritius have a solar energy future?

The country of Mauritius has undergone a solar energy transition that exemplifies its unwavering dedication to a clean and sustainable energy future. Solar energy has gained acceptance in the nation as a competitive alternative to conventional fossil fuels thanks to technology breakthroughs, grid connectivity, and supportive regulations.

Who is Solar Center Mauritius?

SOLAR CENTER MAURITIUS is the only expert in photovoltaic solar energy in Mauritius for over 15 years.) We are more specialized in rooftop solar installations: houses, offices, commercial buildings, agricultural buildings, warehouses, ... All our design office engineers and site managers have been trained in France with the QUALI PV distinction.

How to buy solar panels in Mauritius?

The purchase of solar arrays could be financed through a 'green' loan from commercial banks or a concessional loan from the Development Bank of Mauritius (DBM). Eligible customers for the household solar program will also get benefits from an income tax deduction under the government's Solar Energy Investment Allowance.

Why do we need a solar energy storage system in Mauritius?

Energy storage systems improve the nation's energy supply's dependability and resilience by overcoming the intermittent nature of solar electricity. The construction of big solar power plants all across the island demonstrates Mauritius' dedication to the transformation of solar energy.

The Central Electricity Board (CEB), under the Ministry of Energy and Public Utilities of Mauritius, has made significant strides in scaling up the deployment of solar (photovoltaics) PV systems under the Home Solar Project (HSP) scheme.

Mauritius solar and electric

The MAURITIUS SOLAR CENTER is unique in the world. All types of photovoltaic solar panels and all types of mounting systems are on display. Over 1,000 m² of roof-top showroom, over 1,400 m² of office and warehouse space (Design Office, Laboratory, Engineering, Storage area, Maintenance, Repair).

IRENA and ADFD approved CEB's proposal to install 10,000 solar PV systems on household rooftops across Mauritius, aligning with the nation's commitment to reducing fossil fuel dependence and achieving a 60% share of electricity from renewables by 2030.

SOLAR INSTALLATION. Only 1000 files; Solar production guaranteed 90% for 30 years; Total maintenance 10 years included; Rs 500,000 in CEB Guarantees revenue; Solar Center Mauritius is the n°1 of solar energy in Mauritius; 5,000 solar installations since 2007
