

What is myenergi Eddi?

The MyEnergi Eddi is an eco-smart energy management system, which diverts surplus power from solar PV or wind generation to a water/storage heater rather than exporting it to the grid. The Eddi promotes self-consumption of the energy generated by microgeneration systems and helps to save money on your energy bill in the process.

Is the myenergi Eddi a good investment?

The MyEnergi Eddi is a great idea if you want to make the most of an investment in solar panels or wind power. It works brilliantly, cutting your gas use and often treating you to a full tank of hot water, but its success is dependent on how much electricity you're generating, and how much you're using elsewhere in the home.

What is MyEnergy Eddi 2.1 solar power diverter?

**BULK SAVINGS!** Collect from our branches. Select branch here [MyEnergi Eddi 2.1 Solar Power Diverter](#) is an eco-smart energy management system which diverts your surplus self-generated energy to a designated heating appliance, such as an immersion heater, rather than sending it straight back to the grid.

Who are myenergi?

MyEnergi are a company determined to create a sustainable future by using eco-smart technology. MyEnergi have supplied tens of thousands of homes and businesses globally with smart devices like EV chargers, which are designed to transform living and working environments with green energy solutions.

How does myenergi work?

MyEnergi's app lets you keep an eye on your energy use and savings. Its excellent dashboard gives you a live picture of any generation, along with the energy being diverted to the Eddi and any grid imports and exports. You can also call up historical data for any previous day, or for the previous week, month or year.

How does the Eddi work?

The Eddi promotes self-consumption of the energy generated by microgeneration systems and helps to save money on your energy bill in the process. The Eddi utilises MyEnergi's proprietary VariSine™ technology to ensure compliance with worldwide power grid standards.
