

New Caledonia solar iloilo

How is Iloilo promoting solar energy?

Iloilo's local government is leading the charge in promoting solar energy through various incentives and programs aimed at encouraging residents and businesses to adopt solar technology. These initiatives include tax breaks, subsidies, and streamlined permit processes, making it easier and more affordable for people to go solar.

Will TotalEnergies build a 160-MW solar project in New Caledonia?

TotalEnergies will use its expertise in solar projects to build a 160-MW solar project, with the first phase of 30 MW expected to come online by 2023. Once this project is fully operational, it will be sufficient to meet 67% energy needs of Prony Resources New Caledonia and significantly lower carbon emissions.

Does PCPC have a solar farm in Iloilo?

PCPC's President and CEO, Nicandro Fucoy, highlighted the significance of the solar farm, emphasizing its potential to reduce carbon emissions while contributing as an additional energy source. Iloilo Governor Arthur Defensor Jr. praised PCPC's green initiative, aligning it with the provincial government's commitment to renewable energy.

Which is the first solar power plant in Western Visayas?

The Sacasol Solar Power Plant in San Carlos City was then dubbed as the first solar power plant in the country, and in Western Visayas, when Negros Occidental was still part of Western Visayas. With Negros Occidental already part of the Negros Island Region, the Iloilo solar power plant may be considered as the first in Western Visayas.

Why do we support New Caledonia's energy transition?

We are very proud to support their energy transition, and that of New Caledonia, said Thierry Muller, CEO of TotalEnergies Renewables France. "As industrial firms, we think and act responsibly. Our two companies are committed to protecting natural resources and biodiversity, and to improving the situation of local communities.

Is Iloilo a sustainable company?

Iloilo's commitment to renewable energy, supported by both government initiatives and private investments, sets a promising path for the future. As more people and businesses embrace this clean, green technology, Iloilo will continue to shine as a model of sustainability and progress (Iloilo Business Directory) (PNA.gov.ph).
