How to use genmoji on iPhone?

Here's how to use Genmoji on iPhone to create your own custom emoji. Note that before you use Apple Intelligence, you have to request it for your iPhone. To do so, go to Settings > Apple Intelligence & Siri and tap Get Apple Intelligence. 1. Open Messages and go into a chat. 2.

What is genmoji?

Genmoji is an upcoming generative artificial intelligence(AI) tool developed by Apple. As of October 2024,those signed up for the Apple Developer Beta program can access the feature within the first iOS 18.2 beta update,provided they are using an iPhone 15 Pro or an iPhone 16.

Can I use genmoji on iOS 18?

Users signed up for the Apple Developer Beta Program can now download the first beta for iOS 18.2. However,to access the new Genmoji feature iOS 18.2 must be used on an iPhone 15 Pro,an iPhone 15 Pro Max,or an iPhone 16. Access to the Genmoji tool has been added directly to Apple's default emoji keyboard in iOS 18.2.

Does Apple intelligence support genmoji?

Genmoji and other Apple Intelligence features are also currently not availablein the European Union (EU) countries or China,even on eligible devices with iOS 18.2 beta 1 installed. Since this is beta software,the Genmoji feature may change before the official release of iOS 18.2.

What is Apple genmoji?

Announced as part of a selection of "Apple Intelligence" AI-based features during Apple's WWDC event in June 2024,the Genmoji feature will allow users to generate emoji-like images through text prompts entered directly into their Apple keyboards. Shown below is a "copybara" example Genmoji.

What are genmojis & how do they work?

Genmojis are not based on any standardized text-based encoding or font system. Instead, they are images with an emoji-like aesthetic generated based on users' descriptions being fed into an AI art model managed by Apple. As such, they aren't emojis but stickers - just like Apple's previously released Animoji and Memoji features.

5 ???#0183; Following a prompt, the Genmoji tool generates multiple variants of the emoji image design once the user has submitted the prompt, which the user can then scroll through to select their preferred generated emoji design.

4 ???#0183; By simply typing a description into the emoji keyboard, a Genmoji will appear, including multiple options to choose from. With images from their photo library, users can take Genmoji even further by
