We hire industry experts to manage and maintain your landscaping projects. Oman International Group SAOC's (OIG) services extend seamlessly across a diverse spectrum of sectors.

Will Oman achieve net zero emissions by 2022?

In 2022, Oman announced a target to achieve net zero emissions by 2050 and began reducing fossil fuel use in its domestic energy mix. Based on IEA analysis of the current global project pipeline, Oman is on track to become the sixth largest exporter of hydrogen globally, and the largest in the Middle East, by 2030.

Will Oman be able to generate electricity from natural gas?

Based on recently awarded bid prices in the region, utility solar PV and wind are likely already competitive with electricity generation from natural gas in Oman. The IEA report's analysis indicates that Oman can cost-effectively achieve its targets of renewables reaching 20% of the country's electricity mix by 2030 - and 39% by 2040.
