Transform your home into an energy-efficient powerhouse with our Solar Immersion Controller! Harnessing surplus solar energy from your PV panels, this controller supports up to 3.6kW and effortlessly heats water on demand. Compatible with two devices, it optimises energy usage with real-time data tracking and savings displayed conveniently.

Get free hot water with this 3kW Solar Immersion Controller Power Distributor! This PV Mate MPPT device delivers efficient solar energy to your water heater, saving you money on your utility bills. With a 4.9-star rating and rave reviews for its fast delivery and functionality, this is a great choice for eco-conscious homeowners.

The SOLiC 200 automatically converts energy generated by your existing PV panels into hot water by diverting excess solar power to the immersion heater before it's exported to the national grid. Simple to use and maintenance free, the SOLiC 200 is self contained, easy to install and can save you hundreds of pounds over the course of a year.

Pv mate solar immersion controller Japan

SolarImmersion is an intelligent surplus power control system for your PV system. It diverts surplus power which would normally be exported to the grid. When the unit is connected to an immersion heater, it could provide free hot water from the surplus power. SolarImmersion - ...
