

Saint Martin solar on the roof

Why have solar panels been installed in St Martin's Parish Hall?

St Martin's Parish Hall and its adjoining outside toilet block have had solar panels installed as part of a push to move away from using electricity from the grid, officials said. The installation formed part of ongoing refurbishment projects across the parish and was the first of its kind on the island, they added.

Will St Martin be the first parish to commit to solar power?

In a joint statement, they said: "We felt it was our responsibility to reduce our carbon footprint and this is a great day for St Martin to be the first parish to commit to solar power and to do our little bit for the environment." It comes as works are ongoing to refurbish the hall, meeting room, library and offices.

Why did St Martin get a new tax meter?

The installation formed part of ongoing refurbishment projects across the parish and was the first of its kind on the island, they added. St Martin constables said the change would also work towards "reducing rates" for taxpayers.

Why did St Martin install a toilet block outside the parish hall?

And hopefully going forward, it will reduce costs to the parishioners. "Panels were also installed on the toilet block outside the parish hall to help St Martin become less reliant on electricity from the grid. Credit: ITV Channel
