

Saint Pierre and Miquelon un boxes for lithium batteries

What is a lithium battery shipping box?

The lithium battery shipping boxes are suitable for non-certified batteries, prototypes, battery cells, battery modules and batteries in equipment. For increased part protection, the batteries are stored in layers using customised interior packaging solutions that are developed to safely hold dangerous goods.

What is lithium ion battery packaging?

Our lithium ion battery packaging is suitable for different industries. The ORBIS IonPak is certified to transport solid dangerous goods. That includes lithium-ion batteries, airbags, belt tensioners and other automotive components that need certified packaging solutions for storage and transport.

Can ionpak transport lithium-ion batteries safely?

The ORBIS IonPak is suitable to transport lithium-ion batteries safely. The UN approved packaging is certified for solid dangerous goods in a variety of different industries. With a robust outer packaging, customised interior packaging and dust cover, our lithium battery shipping boxes optimise product flow in industrial supply chains.

What are the certifications for lithium ion battery packaging?

The certifications UN4H2/Y and UN50H/Y of the lithium ion battery packaging apply for recycled and primary materials. Safely transport lithium-ion batteries & solid dangerous goods with UN approved lithium ion battery packaging, like battery shipping boxes.

How does the lithium ion battery packaging work?

In accordance with the latest dangerous goods guidelines, the shock absorbing interior packaging is adapted to your product. The lithium ion battery packaging utilises standard footprints designed to interface with customers' existing supply chains.

Does pack & send deliver lithium batteries?

At PACK & SEND we can provide you with a complete packing and delivery service for lithium battery-powered equipment within the constraints of international regulations but be aware that this is a specialist and costly service and not appropriate for domestic lithium batteries not contained in their equipment.

We provide a complete packing service for equipment with lithium batteries and associated products and other complex shipments and we are aware of all the latest restrictions and requirements for deliveries of equipment containing ...
