

Singapore ginlong solis

What is Ginlong Solis?

Ginlong Solis is a company that provides residential, commercial and utility-scale sectors with sustainable solar products while promoting a scientific, green and humanistic culture. They offer the SOLIS-MINI-3600-4G, a 3.6kW Mini Series inverter with a precise MPPT algorithm and a maximum efficiency above 97%.

What is Ginlong (Solis) Technologies?

Ginlong (Solis) Technologies, with the stock code 300763.SZ, was established in 2005. It is a company that has one of the widest installed bases of string inverters globally. Their inverters convert DC to AC power and interact with utility grids in markets worldwide, reducing carbon footprints and enriching society.

Who are Solis solar inverters?

Solis is one of the world's largest and most experienced manufacturers of solar inverters supplying products globally for multinational utility companies, commercial & industrial rooftop projects, and residential solar systems.

How do I contact Solis (ginlong)?

Solis (Ginlong) themselves appear to be virtually impossible to contact. They don't seem to have a UK website and I had great difficulty getting hold of a technical support number. I eventually managed to get hold of a mobile number of a guy who told me I should send him an email. Which I did yesterday but I'm still yet to get any response.

Who is Solis & what does Solis do?

Solis is the first publicly owned and listed company with a primary focus on string inverters and the first inverter manufacturer to complete PVEL's (Formerly part of DNV-GL) 3rd Party Inverter Reliability Testing.

Does Solis have a national standard for solar string inverters?

Solis has been actively involved with Chinese national bodies in the formulation of 10+ national and industrial standards and has developed two national standards. As a key participant in laying down industrial standards for solar string inverters, Solis takes its responsibility very seriously.
