

Where is Vatican Radio's New solar power plant located?

The plant will be located in Santa Maria di Galeria, some 11 kilometers from Rome, where Vatican Radio's broadcasting station is located. Not only will this project generate renewable electricity, but it will also be integrated with the land's agricultural needs, combining modern technology with sustainable practices.

Where does Pope Francis build a agrivoltaic plant?

With the Apostolic Letter "Fratello sole," issued *motu proprio*, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial zone of Santa Maria in Galeria, where Vatican Radio maintains antennas for digital broadcasting. By Christopher Wells

How will a solar plant benefit the Vatican?

The Pope has given full authority to two special Commissioners to supervise the plant's construction, ensuring that the project is carried out efficiently and effectively. The energy generated by this solar plant will cover all the Vatican's energy needs, eliminating dependence on non-renewable energy sources.

Why did Pope Francis build a solar plant in Rome?

Pope Francis' decision to construct a solar plant on the outskirts of Rome is a tangible manifestation of his commitment to sustainability and the fight against climate change. Not only will this initiative provide renewable energy to the Vatican, but it will also establish a standard for other institutions around the world.

Does the Vatican need a solar plant?

The implementation of a solar plant not only improves the Vatican's environmental sustainability, but also offers economic and social benefits. By generating its own energy, the Vatican can save on light. This is especially relevant in a context where the price of light is a constant worry for many.

Does Pope Francis support solar energy?

Solar energy plays an essential role in Pope Francis' strategy to address climate change. Since his 2015 encyclical "Laudato Si'," the Pope has been a firm defender of climate action and repeatedly appealed to the international community to take swifter and more decisive measures. (ZENIT News /Rome, 14.08.2024).-

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in Vatican City varies throughout the year. The wetter season lasts 8.1 months, from September 7 to May 11, with a greater than 20% chance of a given day being a wet day. The month with the most wet days in Vatican City is November, with an average of 9.6 days with at ...

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome.
