

Does Dubai have a smart grid strategy?

It supports the Dubai Clean Energy Strategy 2050 and the Dubai Net Zero Emissions Strategy 2050 to provide 100% of the energy production capacity from clean energy sources by 2050. In 2014, DEWA developed its first Smart Grid strategy up to 2035, which is a key component of a smart city.

What is Dubai's smart grid programme?

DEWA's Smart Grid Programme, with investments totaling AED 7 billion, supports the directives and the vision of HH Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, to make Dubai the smartest and happiest city in the world.

What is Dewa's smart grid strategy?

In 2021, DEWA launched its updated Smart Grid Strategy up to 2035, evolving from a technology-led approach to a value-driven approach, as well as transitioning DEWA's smart grid programmes into themes. This allows for expanded smart capabilities and provides increased flexibility and agility as new opportunities and needs arise.

What is smart grid artificial intelligence?

It leverages smart grid artificial intelligence to identify the needs of each individual customer and create tailor-made offerings for them that extend far beyond the traditional utility portfolio. This allows DEWA to create new revenue streams and increase customer happiness.

How can Dewa improve customer engagement based on smart grid artificial intelligence?

By utilising smart grid artificial intelligence, DEWA is able to deliver mass-customised messages and campaigns to its customers based on their profile and their interactions with DEWA. This improves customer engagement and happiness, while supporting Dubai's clean water targets.

Case Study: UAE's Smart Grid Initiatives. The UAE, a beacon of innovation in the region, has been proactive in its smart grid endeavors.
