What is solar & storage live?

Solar &Storage Live offers you a unique opportunity to connect with a large and targeted audience of Swiss solar professionals looking for the latest solar and storage products and services.

What is the future of solar energy in Switzerland?

Solar PV power had the dominant share in the total renewable power installed capacity of Switzerland. This share is expected to further increase by 2030. Electricity Generation in Solar Energy market is projected to amount to 2.00bn KWh in 2023.

Is Switzerland a good place to invest in solar PV?

Switzerland still has a largely unexploited solar PV potential in already-built-up areas. An economic optimum could be reached if fewer than two out of three roofs are covered. The next step is to determine which roofs are most suitable.

What is the energy transition in Switzerland?

The energy transition is currently being implemented in Switzerland through the Energy Strategy 2050, with the goal of climate neutrality. Only 4 of Switzerland's 5 nuclear power plants have been in operation since 2020 and renewable energies' share of total final energy consumption rose to around 28% in 2021.
