What is the best solar battery?

At just 3 kWh per module, the Generac PWRcell is the most flexible and customizable solar battery on our list and perhaps the market. Stack three batteries together for 9 kWh of usable capacity - ideal for Solar self-consumption and light backup - and then add up to three more per cabinet as your storage needs increase.

Can solar power be stored in a battery?

Existing solar systems typically have solar inverters which change the DC power produced by panels to AC power that can be consumed in your home or exported onto the grid. But if you want to store that AC power in a battery, it needs to be inverted again to DC power.
