Why should you choose Oman solar?

At Oman Solar, we have latest technology by which we can use NATURAL RESOURCES and convert the NATURAL energy into POWER (ELECTRICAL ENERGY). The solar photovoltaic energy is a most viable solution for reliable and remote application in the region because of the availability of the sun for almost 365 days in the year.

Is investing in solar energy profitable in Oman?

Solar energy in Oman is expected to become progressively cheaper in the near future and could offer a good return for investments. The success of solar energy in Oman is merely determined by the government's regulatory policies, fiscal incentives, and public financing.

Can solar energy generate electricity in Oman?

Solar energy can potentially generate electricity to meet all of Oman's domestic electricity requirements and provide some electricity for export.
