Where are CIGS solar panels made?

Where are your solar panels produced? Our solar cells are manufactured at our production facilities in Jönköping, Sweden, and Bari, Italy, using our proprietary DUO system, the world's most prevalent production system for flexible CIGS solar cells. After manufacturing, the solar cells are assembled into complete solar panels at the same locations.

Are Midsummer solar panels eco-friendly?

Midsummer solar panels set the industry standard with the lowest CO2 emissions, only 6g per kWh--90% lower than traditional silicon-based solar panels, which average 40-60g CO2/kWh. Our silicon-free solar cells are not only 98% recyclable but also include 63% of materials from reuse, strengthening our contribution to a more sustainable future.
