

What is HanTile solar roof?

Based on Hanergy's MiaSol[®] high efficiency Thin Film cells, the Hantile is the ultimate roof application of thin film. Finally all visible surface of a curved solar roof tile can be efficiently used, making it possible to get maximum yield of a tile roof. Under all circumstances.

What are autarq solar roof tiles?

Roof tile and solar module in one. Autarq solar roof tiles are original roof tiles with integrated miniature solar modules. They are almost indistinguishable from regular roof tiles and blend seamlessly into the overall aesthetic of your roof. Gain freedom from electricity suppliers and soaring prices.

Should solar panels be installed over traditional roofs?

Solar panels installed over traditional roofs can suffer from weather-related problems and compromise the roof construction. The EU-funded TilePlus project designed new roof tiles with embedded tough photovoltaic cells. This would allow millions of homes across Europe to produce their own energy.

Why should you choose a roof tile with or without solar cells?

This ensures that your roof can be designed with exactly the Watt-peak (solar cell performance) that makes sense for the consumption your household has. There is a minimal visual difference between a roof tile with or without solar cells, and it can actually only be seen if one looks at the tiles closely and from above.

Can autarq solar roof tiles be installed without electrical knowledge?

Install our solar roof tiles without prior electrical knowhow. Find out to what degree Autarq solar roof tiles can match your energy needs and get a cost estimate. Roof tiles by renowned manufacturers, enhanced with Autarq-developed, building-integrated solar technology. Crowdinvesting goes Next Level Impact.

How to choose a solar roof?

Choose the size of your Autarq solar roof freely and depending on your energy needs. Just as durable as original roof tiles. Transform your roof into an attractive power generator - regardless of its shape or size. The Autarq system is modular, making it perfect even for complex roof surfaces.

The roof tiles are available both with and without integrated invisible solar cells. This ensures that your roof can be designed with exactly the Watt-peak (solar cell performance) that makes ...

Pompeii is shining a light on mysterious rites of ancient Rome thanks to terracotta-style solar roof tiles installed on one of its most famous villas. The traditional-looking ...

Solar panels installed over traditional roofs can suffer from weather-related problems and compromise the roof construction. The EU-funded TilePlus project designed new roof tiles with embedded tough photovoltaic cells.

This would ...

Solar Roof Tiles vs Solar Panels. The numbers above are daunting to be sure, especially so given it is such a new and largely underutilised technology. The more cautious homeowner out there may find the proposition of removing their ...

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more ...

The 335Wp panel is now well recognised in the industry, and on properties throughout the UK and Europe. A Perfect solution for domestic properties with smaller roof areas, or obstacles in the ...

Solar panels installed over traditional roofs can suffer from weather-related problems and compromise the roof construction. The EU-funded TilePlus project designed new roof tiles with ...

Based on Hanergy's MiaSol[®] high efficiency Thin Film cells, the Hantile is the ultimate roof application of thin film. Finally all visible surface of a curved solar roof tile can be efficiently used, making it possible to get maximum yield of a ...

Volt revolutionises solar energy generation with its cutting-edge solar tiles, transcending the limitations of traditional rooftop solar systems by seamlessly integrating renewable energy into the very fabric of your roof's design.
