

What is solar & storage live 2023?

Solar & Storage Live 2023 is being held at the NEC in Birmingham on 17-19 October. It is the UK's largest renewables only conference and trade show that brings together the entire energy value chain and focuses on key enabling technologies on the path to net-zero: Solar, Storage, EVs and other complimentary technologies.

Is infrastructure a problem for solar projects in the UK?

Infrastructure continues to be one of the biggest hinderances on the widescale rollout of solar projects across the UK. This was a topic explored in detail by Nick Winser, the electricity networks commissioner, in his landmark report released earlier this year.

Will 15GW of floating solar PV be installed by 2025?

Image: Solar Media. "We are expecting 15GW of floating solar PV to be installed by 2025," said Victor Signes, senior analyst - renewables at Rystad Energy during the 'A Wave of Opportunities- Development & Deployment of Floating Solar Farms' panel.
