

Solar tubular battery San Marino

Is a battery bank necessary for a solar PV system?

In the case of most residential solar PV systems, a battery bank is not necessary. However, for those in areas with peak time-of-use (TOU) rates that are double the price compared to off-peak rates, a solar battery storage system can be beneficial for using electricity without having to pay such high prices.

Can you buy solar batteries at wholesale prices?

Through our partnerships with many reputable solar battery brands, you can buy batteries in bulk quantities at wholesale prices. By doing so, you can offer these products in your area that consumers may not be able to find elsewhere.
