

South Africa aluminext solar racking

Who is aluminext solar racking?

We design and manufacture solar mounting systems for the solar industry in the residential, commercial and industrial roofs. We are established in Mexico, the United States, Canada, Central America, and South America. Our solutions are based on three pillars: Why Aluminext Solar Racking?

Who is solarframe?

Established in October 2012 to fill a gap in affordable and professional solar roof mounting solutions in the Garden Route area, SolarFrame quickly stood out as a leading manufacturer of solar PV mounting systems in South Africa.

What products does solarframe offer?

Their product range is divided into three key sectors: car ports, ground mounts, and roof tops, with supplementary options for floating solar, roofless, and tracker systems. 3. Solarframe Website: solarframe.co.za

Who is Lumax energy?

Website: lumaxenergy.com Lumax Energy is dedicated to developing and crafting a wide array of structural solutions tailored for mounting photo-voltaic panels. Our in-house services enable us to meticulously design, fine-tune, and produce specifications that are just right for each project, ensuring precision from the outset.

Does South Africa have a strong solar energy sector?

South Africa's renewable energy sector is seeing a remarkable increase, mainly driven by the nation's strong solar energy production. With one of the highest levels of sunlight globally, South Africa stands out as a key player in solar energy generation.

Why should you choose solarframe?

SolarFrame has grown its customer base successfully, providing affordable, user-friendly products throughout South Africa and Africa. Their design focuses on durability and ease of installation, featuring aluminium roof-mounted products with stainless steel components, and ground mounts made from hot-dipped galvanised mild steel.
