

South Africa sofarsolar

What products does SOFAR offer?

SOFAR offers a wide range of renewable energy products, including on-grid and hybrid inverters, and battery storage systems. Through R&D efforts, SOFAR has been able to provide multiple novel technological solutions in both software and hardware.

What are Sofar Solar solutions?

Sofar Solar solutions refer to on grid battery storage for single phase applications. They are also developed with the capability for EPS (Emergency Power Supply) for power back-up in the case of a power supply failure. This means that the SoFar systems are prepared for use in the event of power cuts.

Who is Sofar solar?

SOFARSOLAR is a subsidiary of the Chinese Shenzhen SOFAR Group which was founded in 2007. While solar energy was just one aspect of the group's broad portfolio, in 2012 SOFAR SOLAR was established to focus on the research, development, and production of solar inverters.

Where is SofarSolar located?

SofarSolar's European headquarters, SofarSolar GmbH, is located in Reutlingen, Germany. It manages the development of the markets in the EMEA Region (Europe, Middle East, and Africa), as well as the marketing and service of SofarSolar products.

Who is a distributor of SOFARSOLAR in India?

IB Solar is the top distributor of SOFARSOLAR in India. Sofar Group entered India in 2016 and made IB Solar its Channel Partner in the year 2020.

How many employees does Sofar solar have?

They now have over 400 employees and boast a highly experienced research and development team that has helped to improve both the software and hardware of inverter technology. In addition to its in-house growth, Sofar Solar has expanded its international presence.
