

Spark solar Namibia

Can Namibia's solar PV capacity be expanded?

HopSol spoke with ECP about how Namibia's solar PV capacity can be expanded and further integrated with the national grid.

What makes spark a great energy company?

We know that when it comes to energy, customers want to start small and scale up as and when they can afford. At Spark we incorporate true modularity. This means we don't just offer customers a single expansion offer. We enable them to take on as much as they can afford, when they need it and in 2022 we put this into practice.

Who is spark?

We are Spark, and we're here to power tomorrow. We connect millions of people in emerging markets to solar power. We promise the highest level of customer satisfaction, and we deliver on that promise.

What is spark's vision for off-grid communities?

Spark's vision of the future energy network for off-grid communities is what drives us forward. We're not just a product manufacturer or designer. We're not just an access to finance partner, we're not just solar specialists - we're all of those things and more. We set out to create an entirely new energy ecosystem.

What is the impact of a Spark Energy kit?

The impact of a Spark Energy Kit is greatest in our last-mile communities- through access to light bulbs, lamps, portable chargers, radios, televisions and fans. We use the industry certified metrics to quantify our impact, which tells the story of why clean energy matters in the world's most remote communities.

What's new at Spark?

Spark - formerly known as Rural Spark, has unveiled our rebrand with a bold new look that reflects our confident approach to transforming energy access. New look, same mission. Latest raise gives Spark a multi-million dollar boost in growth capital, fueling expansion into the energy access market.

Spark is set to receive a credit line of EUR2 million which will finance the supply of our Spark energy kits. Our pay-as-you-go, modular solar solutions and appliances will connect an estimated ...
