What is the Guide to solar energy in Sudan?

"The Guide to Solar Energy in Sudan" is the first booklet of its kind in Sudan that targets consumer awareness at a "grass root" level, proudly developed by Clean Energy 4 Africa, and supported by several of the largest solar energy companies in the country.

Should Sudan invest in solar energy?

Given the strong support of the population for this technology and the high solar radiance across the country, Sudan, primarily represented by the government, needs to grasp this rather invaluable opportunity to invest in solar energy. However, the government's present tax policies and lack of incentives act as a large barrier against its diffusion.

What is the price of electricity in Sudan?

Sudan, September 2022: The price of electricity is 0.009 U.S. Dollar per kWh for households and 0.045 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

What is the first-ever directory of solar energy companies in Sudan?

The first-ever directory of solar energy companies in Sudan The Guide was officially inaugurated in a hybrid event held on March 31st, 2022 at the headquarters of 249Startups- one of the leading startup incubators in Sudan.

What are the knowledge and data gaps in Sudan?

The idea behind this booklet is to address the knowledge and data gaps in Sudan that hinder the development of the solar energy sector. Over the past few years, demand for solar energy solutions by Sudanese homeowners, businesses, and farms has been rising and as a result, a lot of new companies entered the market.
