

What are the benefits of solar energy in Eritrea?

The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long run even if its installation cost is quite high.

Who is Sunation Energy's interim CEO?

Mr. Maskin has served as Interim CEO since May 2024. Mr. Maskin has more than 20 years of experience in the residential and commercial solar, battery storage, and photovoltaic service industries. He co-founded SUNation Energy in 2003, and is known for his commitment to the customer experience and for being a leader in the energy renewables field.

Can a digital elevation model estimate solar energy in Eritrea?

In this work, a digital elevation model (DEM) is applied to estimate the potential of solar energy in Eritrea at a regional level for the photovoltaic system. The ArcGIS and ENVI softwares are used to compute the solar radiation from the DEM data.

Does Eritrea have solar power?

Eritrea's weather, characterized by long sunny days throughout the year, makes it suitable for harnessing solar power. Data from the wind and solar monitoring stations installed in many parts of Eritrea show that the country has a great potential, around 6 kWh/m² of solar energy.

Can Eritrea build a 30 MW solar facility in Dekemhare?

Representational image. Credit: Canva The Ministry of Energy and Mines in Eritrea has initiated a bidding process for the establishment of a 30 MW solar facility in the central region of Dekemhare within the African nation.

What is Eritrea's main source of energy?

Eritrea's major source of energy is petroleum, which drains the foreign currency reserves of the country and is globally a major cause of pollution. The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel.
