3 ???&#0183; The energy sector will be a critical pillar of any future reconstruction efforts to ensure political cohesion and economic viability. But the global upstream landscape has fundamentally changed over the past decade-plus, making the situation in Syria today much different than it was when, for example, the Iraqi sector opened up after the fall ...

Ameresco, Inc. and Sunel Group have established Ameresco Sunel Energy S.A., which has already been selected by Cero Generation, a leading European solar energy developer, as the contractor for "Delfini", a 100MWp solar photovoltaic (PV) project in Greece, currently in the construction phase.

SUNEL GROUP is a globally recognized EPC Contractor and Developer for Solar projects. With its" headquarters in London, regional headquarters in Valencia, Athens, Istanbul and Dubai and a total of 8 corporate offices worldwide, the group is staffed by over 350 employees consisting of highly-experienced and specialized teams of engineers ...

In the 2000s, Syria's electric power system struggled to meet the growing demands presented by an increasingly energy-hungry society. Demand grew by roughly 7.5% per year during this decade, fueled by the expansion of Syria's industrial and service sectors, the spread of energy-intensive home appliances, and state policies (i.e. high subsidies and low tariffs) that encouraged wasteful energy practices. Syria's inefficient transmission infrastructure compounded these probl...
