Russian companies.

Turkey's Energy and Natural Resources Ministry on Tuesday said it was seeking to resolve a dispute between the parties involved in the construction of a \$20 billion nuclear power plant by Russia's state-run nuclear energy firm Rosatom in Akkuyu, southern Turkey.

Rosatom, through its affiliate Akkuyu Nuclear, has signed an agreement with TSM Enerji to undertake the remaining work at the Akkuyu nuclear power plant, located in the Turkish province of Mersin on the Mediterranean coast after ending a deal with Turkish firm IC Ictas, in a move that could cause a delay in the construction process.
