

Temperature controlled cabinet Chile

What are climate controlled cabinets & enclosures?

Our climate controlled cabinets and enclosures feature built-in air conditioners, heaters, and thermostats and are ideal for mounting electrical and electronic equipment both indoors and outdoors. The enclosures are designed to provide protection from rain, sleet, snow, ice, dirt, dust and debris.

What are climate controlled boxes & enclosures?

Our climate controlled boxes and enclosures feature built-in air conditioners, heaters and thermostats and are ideal for mounting electrical and electronic equipment both indoors and outdoors. The enclosures are designed to provide protection from rain, sleet, snow, ice, dirt, dust and debris.

Why do you need a temperature control enclosure?

The enclosures are designed to provide protection from rain, sleet, snow, ice, dirt, dust and debris. In addition, they provide temperature control to keep sensitive equipment at the optimum operating temperature using both air conditioning for hot environments and supplemental heating to prevent condensation in more humid and colder locations.

What is a Delvalle climate control enclosure?

Delvalle climate control enclosures provide effective, energy efficient cooling and heating to meet the unique needs of your application.

Climate Controlled Cabinet Options. A quality climate-controlled cabinet begins with insulation. At American Products, we recommend all enclosures with climate control be outfitted with insulation. Using insulation helps to control how much heat is allowed in and out of your enclosure. This makes your heater or air conditioner more efficient.
