

Top 5 Reasons: Why Investors Should Choose the Gambia for Solar Energy 1. Attractive Domestic Market 2. Attractive Solar Opportunities 3. Strong Government Support 4. Stable Business Climate 5. Skilled & Cost Effect Workforce Driven by a steady growing population (2.42m growing at 3% p.a.), business expansions and rapid urbanization - the

Energy demand in The Gambia has increased by 5.5% per year in recent years and today's connection of the new 23 MWp solar plant to the national energy grid will significantly increase Gambia's current generation ...

Energy demand in The Gambia has increased by 5.5% per year in recent years and today's connection of the new 23 MWp solar plant to the national energy grid will significantly increase Gambia's current generation capacity of 98 MW and enable electrification of rural areas.

Clean Energy: Produces 23MW of clean solar power, reducing greenhouse gas emissions and contributing to environmental protection. Energy Security: Increases energy independence and strengthens the stability and reliability of The Gambia's power grid.

The Gambia has set ambitious climate goals defined in its Nationally Determined Contribution (NDC) to the Paris Agreement, aiming to have a total of 60 MW of installed solar capacity by 2025. This NAMA Support Project (NSP) Investing in Grid-Connected Solar PV in The Gambia provides incentives for the private sector to invest in solar capacity .

2 ???&#0183; Jambur solar plant, a farm of over 47,000 solar panels collectively producing up to 21 Mega Watts (MW) of electricity - more than Kar Power's 15 MW, Brikama power stations 1 and 2 combined, and Senelec's 15 MW - has been described as a more sustainable means of power generation and supply for a country of less than 500 km square, yet generating solar radiance ...

The Government of the Gambia through the Ministry of Petroleum and Energy (MoPE) and the National Water and Electricity Company (NAWEC) has benefitted from World Bank's support to develop a 50 MWp Regional Solar Project on a site with excellent solar irradiation in Soma - Lower River Region, The Gambia.

Increasing investment into clean and reliable renewable energy for The Gambia is a top priority of the government. Due to its strategic location and ideal conditions, The Gambia is ideally suited for investment into the Solar Energy sector. The ...
