

Timor-Leste smart grid exemple

How will the ADB help Electricidade de Timor-Leste?

In Southeast Asia, Electricidade de Timor-Leste has secured funding from the Asian Development Bank (ADB) to modernise its grid network with smart meters and smart grid technologies. The utility will use a \$35 million loan from the ADB to ensure its grid network is resilient enough to power consumers in 12 municipalities.

Why is Timor-Leste becoming an independent country?

Timor-Leste, in Southeast Asia, emerged from decades of conflict in the late 20th century to become an independent nation in 2002. A key focus for the new nation has been to improve energy access via the rapid roll-out of an electricity network.

How will Timor-Leste achieve the SDGs?

Power generation in the SDG scenario oTimor-Leste plans to implement 72 MW solar and 50 MW wind by 2024 and 2026 respectively. oThis will increase RE share in power generation from 0.2% in 2021 to 35.4% in 2030. Power generation mix in different scenarios

Will Timor-Leste share EDTL's OPGW fiber cores?

ed land rights. CRAFTING THE PROPER REGULATORY INSTRUMENT Even in the absence of a clear and enforced legal mandate, Timor-Leste's current arrangements to share EDTL's OPGW fiber cores were made possible based on mutual interest between E

Does Timor-Leste have electricity?

Electricidade de Timor-Leste provides electricity to more than 200,000 households, but its distribution network is in poor condition, with excessive voltage drops and persistent service outages, according to a statement.

Does Timor-Leste have a food security problem?

A key focus for the new nation has been to improve energy access via the rapid roll-out of an electricity network. However, Timor-Leste has seen little improvement in its (predominantly subsistence) agricultural sector, and its food security situation remains precarious.

oTimor-Leste Strategic Development Plan 2011-2030: oprovide electricity access to all households by 2030. oNo families in Dili will have to cook with firewood by 2020. oRegulation on Fuel, ...
