

What is Tunisian Solar Program?

Tunisian Solar Programme, launched in 2005, is a joint initiative of UNEP, Tunisian National Agency for Energy Conservation, state-utility STEG and Italian Ministry for Environment, Land and Sea. The program aims to promote the development of the solar energy sector through financial and fiscal support.

Where is the first large scale solar power plant in Tunisia?

The first large scale solar power plant of a 10MW capacity, co-financed by KfW and NIF (Neighbourhood Investment Facility) and implemented by STEG, is in Tozeur. TuNur CSP project is Tunisia's most ambitious renewable energy project yet.

How much power does Tunisia have?

The installed electricity capacity at the end of 2015 was 5,695 MW which is expected to sharply increase to 7,500 MW by 2021 to meet the rising power demands of the industrial and domestic sectors. Needless to say, Tunisia is building additional conventional power plants and developing its solar and wind capacities to sustain economic development.

How much money is needed to implement the Tunisian Solar Program?

The total investment required to implement the Tunisian Solar Program plan have been estimated at \$2.5 billion, including \$175 million from the National Fund, \$530 million from the public sector, \$1,660 million from private sector funds, and \$24 million from international cooperation.

When did wind power start in Tunisia?

The first wind power project of Tunisia started in 2000, with the installation of the Sidi-Daoud's wind farm in the gulf of Tunis. The station has been developed in three steps before reaching its current power capacity of 54 MW. The operation of two wind power facilities in Bizerte - Metline and Khabta Station - was launched in 2012.

How many wind farms are there in Tunisia?

Since 2008, wind energy is leading the energy transition of Tunisia with a growth of the production up to 245 MW of power installed in 2016. Two main wind farms have been developed until now: Sidi-Daoud and Bizerte. The first wind power project of Tunisia started in 2000, with the installation of the Sidi-Daoud's wind farm in the gulf of Tunis.

Growatt SPH ARK Speichersystem DC 10.0 kW mit 10.0 kWh Speicher Photovoltaikspeicher SET - Akku 3-Phasig: Kaufen und Bestellen im Webshop Produktbeschreibung. Das Growatt SPH ARK Speichersystem DC 10.0 kW ...
