

ASPILSAN Energy, a cell battery manufacturer in Türkiye's Kayseri province, has signed a technology transfer agreement with its South Korean partners in December 2020 to develop lithium-ion cell batteries in Türkiye.

Turkey has become an entry point into the European market for EV battery companies and other tech companies from China.

In 2019, Togg and Farasis formed a joint venture named SIRO, each taking a 50% stake, to build a battery plant in Gebze, Turkey, that will produce lithium-ion batteries to power Togg's electric cars. Farasis is not the only Chinese tech company making its way into Turkey.

Sources: batteriesnews.com, tskgv.org.tr ASPILSAN Energy, a subsidiary of the Turkish Armed Forces Foundation, has announced that it has started mass production of the lithium-ion rechargeable cell in its Kayseri production facilities.
