

What is a seplos 48V 200A LiFePO4 BMS?

The V3.0 Seplos 48V 200A LiFePO4 BMS provides a robust battery management tool designed for 16S cell battery packs. This BMS contains a vast range of protective features to ensure the battery pack operates within safe operating limits, recognises fault conditions, and takes appropriate action to prevent damage to the battery and connected equipment.

How does the seplos BMS work?

Utilising CANBUS and RS485 inputs, the Seplos BMS can be programmed to communicate with inverters, chargers or loads, to optimise its performance and protect the battery pack from overcharging, over-discharging, short circuits, and overheating. This version of the BMS comes with Bluetooth functionality, and the display screen.

Does seplos BMS come with active balancer?

The V3.0 Seplos BMS also comes with optional Active Balancer. Seplos Active Balancer Board. This can only be used with the compatible Seplos BMS V3.0 - it will not work with previous versions. The board gets energy from the battery pack, and 3 circuits can be activated at the same time. Each circuit offers a 2A balance current.

How many units can a BMS support?

BMS can support up to 16 units in parallel operation. IMEON The default is Pylontech RS485 protocol. RS485 protocol also includes; BMS Technical Specifications The Seplos 48V 200A LiFePO4 BMS V3.0 provides a robust 16S battery management tool designed for 16s cell battery packs with optional Active Balancer.

What is a seplos active balancer board?

Seplos Active Balancer Board. This can only be used with the compatible Seplos BMS V3.0 - it will not work with previous versions. The board gets energy from the battery pack, and 3 circuits can be activated at the same time. Each circuit offers a 2A balance current. BMS can support up to 16 units in parallel operation. IMEON

This Seplos BMS 3.0 Type B has integrated communication ports and status lights on one board. Model 13S and 14S are suitable for NCM batteries, while 15S and 16S are for LFP batteries. This BMS model is satisfied for 48V 200A ...
