United States solar government website

What's new in solar energy development across the west?

WASHINGTON -- The Department of the Interior today announced an updated roadmapfor solar energy development across the West,designed to expand solar energy production in more Western states and make renewable energy siting and permitting on America's public lands more efficient.

What is the $7 billion solar for all program?

Oops,something went wrong. Check your browser's developer console for more details. Under the $7 billion Solar for All program,the 60 grant recipients will create new or expand existing low-income solar programs,which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

How many acres of public lands are needed for Western Solar Plan?

In considering updates to the Western Solar Plan,the BLM worked closely with the Department of Energy's National Renewable Energy Laboratory to examine forecasts for national clean energy needs and determined that approximately 700,000 acresof public lands would be needed to meet those goals.

What is the US large-scale solar photovoltaic database?

The U.S. Large-Scale Solar Photovoltaic Database provides the locations and array boundaries of U.S. ground-mounted photovoltaic facilities, with capacity of 1 megawatt or more.

Should local governments automate residential solar permitting?

The new designation requires local governments to automate residential solar permitting. This $6.5M DOE funding opportunity is ideal for early-career solar energy researchers,supporting early-stage ideas in photovoltaics and concentrating solar-thermal power.

How much solar power did the US install in Q1/Q2 2024?

U.S. PV Deployment The International Energy Agency (IEA) reported that the United States installed 15.6 GW acof solar capacity in in the first quarter (Q1)/second quarter (Q2) of 2024 (the Solar Energy Industries Association reported 21.4 GW dc)--a 55% increase from the record achieved in Q1/Q2 2023.

Each quarter, the National Renewable Energy Laboratory (NREL) conducts the Quarterly Solar Industry Update, a presentation of technical trends within the solar industry. Each presentation focuses on global and U.S. supply and ...

5 ???· On this page you"ll find resources to learn what solar energy is; how you, your business, or your community can go solar; and find resources for every step of the way. It also shares how the Solar Energy Technologies Office ...

6 ???· NREL"s research helps farmers, local communities, and global partners navigate the complexities of bringing solar onto the farm. Read more The National Renewable Energy ...

The Department of the Interior today announced an updated roadmap for solar energy development across the West, designed to expand solar energy production in more Western states and make renewable energy ...

Find and download solar resource map images and geospatial data for the United States and the Americas. For more information on NREL"s solar resource data development, see the National ...

Find and download solar resource map images and geospatial data for the United States and the Americas. For more information on NREL"s solar resource data development, see the National Solar Radiation Database (NSRDB) .
