Who is IBV Energy Partners?

ibV Energy Partners is a leader in the development and operations of integrated solar + storage power plants across the United States. We are focused on the utility-scale segment and partner with wholesale power providers and corporate entities to address their resource planning process and long-term decarbonization goals.

What is the main source of energy in Uruguay?

Fossil fuels are primarily imported into Uruguay for transportation, industrial uses and applications like domestic cooking. Four hydroelectric dams provide much of the country's energy supply. Historically, energy has been a stronghold of state-owned companies, such as UTE and ANCAP.

Why did Uruguay reopen the Nuclear Debate?

The energy crisis in Uruguay in 2007 led to Uruguay reopening the nuclear debate under the presidency of Tabaré Vázquez, when the Executive Branch established a multiparty committee devoted to the study of the use of nuclear energy to generate electricity and the installation of a nuclear power plant.

When did Uruguay start evaluating nuclear energy?

In July 2011 the government announced that Uruguay was soon to enter Phase 1 of an evaluation of nuclear energy, [a] providing 10 million Uruguayan pesos from the national budget to hire specialist advisers, consulting the population and reviewing the human resources and technology available.

Why are fossil fuels mainly imported into Uruguay?

Fossil fuels are largely imported into Uruguay for transportation and industrial uses. The high import costs, and the rapid transition to renewables on the electricity grid has increasingly made fossil fuels less important. Uruguay is a petroleum - importing country, and most of the industry is controlled by the state owned industry ANCAP.

Is Uruguay a petroleum importing country?

Uruguay is a petroleum - importing country, and most of the industry is controlled by the state owned industry ANCAP. ANCAP operates both the only refinery in Uruguay, La Teja Refinery and the distribution of gas within the country.
