

Viking cold Syria

Who is Viking cold?

Their team has deep expertise in cold storage energy management, supermarket energy management, and thermal energy storage systems. Viking Cold provides environmentally friendly thermal energy storage that reduces operational costs and business risk for cold storage and supermarkets with high refrigeration-based energy loads.

Who is Viking cold solutions?

Viking Cold Solutions is a thermal energy management company, making cold storage systems more efficient, delivering environmental benefits and cost savings. Thermal Energy Storage Systems offer efficiency and flexibility for improved demand management, temperature stability and costs.

How does Viking cold work?

Viking Cold's innovative application of environmentally-friendly Phase Change Materials (PCM) and cloud-based intelligent controls and monitoring combines energy storage with efficiency to enable flexible energy management and reduced energy costs.

How do I contact Viking cold solutions?

For more information on Thermal Energy Storage contact sales@vikingcold.com. Viking Cold Solutions is a thermal energy management company, making cold storage systems more efficient, delivering environmental benefits and cost savings.

How has Viking cold impacted the environment?

Viking Cold has saved clients tens of thousands of MWh, reduced carbon footprint by tens of thousands of metric tons, and mitigated over \$16M of product loss.

What is Viking cold solutions TES technology?

Viking Cold Solutions' innovative TES technology has won numerous industry awards and is transforming the energy efficiency of the cold chain while protecting the world's food supply and reducing the carbon footprint of the food industry and refrigeration around the globe.

Los sistemas de almacenamiento de energíamica Viking Cold han ahorrado a sus clientes más de 8,056 MWh de energía, a reducir la huella de carbono en más de 3.900 toneladas métricas y ha evitado más de \$13 millones de pérdidas de productos. Su equipo posee una gran experiencia en la gestión de energía en almacenamientos ...

Among the Viking Cold clients the article highlighted as managing demand through the use of TES was Dreisbach Enterprises in Richmond, California, which has reduced demand between 300 kW to 500 kW for 13 hours per day, six days a week while also improving temperature stability by 50% and avoiding the technique
