Who is Vikram Solar Limited?

Vikram Solar Limited is an Indian company based in Kolkata. It is one of the largest solar module manufacturers in India (by capacity), with 3.5 GW module manufacturing capacity annually and the second-largest solar energy company in India by revenue.

Are Vikram Solar panels a good choice?

Their models range from budget-friendly 340W panels to high-performance 715W modules. Efficiency generally floats from 20.2% to 23%, competing with that of top brands. The high performance and efficiency make Vikram Solar modules a great option for both residential and commercial solar systems.

Where is Vikram Solar located?

In February 2016, the company partnered with Powertech Africa, an African distributor of energy technology, thereby entering 14 new markets in Sub-Saharan Africa, including Botswana, Zimbabwe, and Tanzania. Vikram Solar already operates offices in Kenya, Uganda, and South Africa. In June 2016, the company won the National Excellence Award.

Who is EPC Vikram Solar?

EPC Vikram Solar is among the top five EPC players as per installed EPC base in India, and have more than a decade of experience in executing EPC projects for solar plants and have more than 300 projects ^December 2021. EXPERIENCE

How many MW of solar modules did Vikram Solar supply?

Vikram Solar Supplied 4.3 MW of Modules for a solar farm in Ware, Massachusetts, United States. Vikram Solar Supplied 52.6 MW of Modules to Southern Current, United States. 4.2 MW project commissioned in the US with Vikram Solar modules.

Why does Vikram Solar export to the US?

Vikram Solar's exports to the US market have provided it with an avenue to make use of its excess capacity. Chaudhary says that about half of its revenues come from the US market and they have a plan to start making modules there. In 2022, the passing of the Inflation Reduction Act in the US provided a further fillip to exports to the US.

Vikram Solar boasts a rich portfolio of solar panels with varying wattage outputs. Their models range from budget-friendly 340W panels to high-performance 715W modules. Efficiency generally floats from 20.2% to 23%, ...

Indian module manufacturer Vikram Solar's first foray into vertically integrated PV manufacturing in the US is designed not just to leverage the opportunities presented by the ...

# Vikram solar Cuba

Vikram Solar was founded in 2006 by Gyanesh Chaudhary as a manufacturer of solar modules. It has since moved into engineering, procurement, and construction management, and solar power plant operations and maintenance. Vikram Solar commenced manufacturing operations in 2009 with an installed solar PV module manufacturing capacity of 12.00 MW, which has grown to 3.50 GW installed capacity as on March 2024.

Indian module manufacturer Vikram Solar's first foray into vertically integrated PV manufacturing in the US is designed not just to leverage the opportunities presented by the Inflation ...

As on July 08, 2024, Vikram Solar has 2.43 GW enlisted capacities in the Ministry of New & Renewable Energy's Approved List of Module Manufacturers (ALMM). With our state-of-art ...
