

Wind turbine battery storage system British Virgin Islands

The British Virgin Islands Electricity Corporation (BVIEC) and Power52 executed the contract for the Anegada Hybrid Renewable Energy & Battery Storage System (BESS) Project in November 2021 in the sum of \$4,687,944.72.

Hitachi Energy has been selected to supply a large-scale battery energy storage system (BESS) for a wind farm in the Faroe Islands, as the remote archipelago targets a goal of 100% renewable energy.

Wind turbines are already in use and expanding, businesses and homes are incorporating solar energy, and electric cars are climbing the hilly terrain in formidable opposition to the gas ...
