Propose Solutions-> With DESIGN, quickly model detailed power and thermal flow in your microgrid/DER network together with financial constraints. Design for Optimal Performance->

How long does xendee take?

"I can take what normally would include a site walk-through, three months of negotiating with the utility to get the data, and a ten hour modeling exercise, and with Xendee can smash that into just a couple hours. This allows me to quickly provide a report to a customer that substantiates the potential benefits of a proposal."

With more than 40 years of international experience in the design and the economic and financial analysis of hybrid renewable and microgrid projects, Peter Lilienthal brings knowledge and ...
