

Who makes GS Yuasa Batteries?

Now, over a century later, GS Yuasa are still one of the world's largest global manufacturers of Lead-Acid and Lithium-ion (Li-ion) batteries. For over 30 years, GS Yuasa Battery Europe Ltd have been Europe's leading battery supplier and the number one choice for quality, performance and reliability.

Are GS Yuasa Batteries recyclable?

Unlike most solutions on the market, GS Yuasa modules are constructed in a way that aids recycling. They use lithium manganese chemistry which is widely available from responsible and recycled sources. Click to download the GS Yuasa lithium-ion range brochure.

What makes GS Yuasa a good battery management system?

GS Yuasa manufacture and supply all of the key elements required for this battery management system architecture. Every module is equipped with a battery monitoring PCB which measures cell voltage and module temperature, protecting the battery in case of overcharge, overdischarge or excessive heating. GS Yuasa PCB LiBM II features

Why should you choose GS Yuasa lithium-ion batteries?

For over 30 years, GS Yuasa lithium-ion batteries have delivered unparalleled performance in critical applications. Using proven Japanese engineering and technology, our state-of-the-art cells and modules have been used in thousands of projects where failure is not an option.

When did Yuasa start making batteries?

Yuasa Iron Works began producing storage batteries in 1915, and three years later Yuasa Storage Battery Co., Ltd was established. Soon after, Yuasa Storage Battery Co., Ltd began making Japan's first automotive batteries. In 1925, Yuasa began making dry cells, and in 1941 they began making alkaline cells.

How does GS Yuasa LIM reduce power consumption?

Reduces power consumption by storing energy created through braking and then supplying it during acceleration. GS Yuasa LIM modules are a fully configurable solution which can be used to create powerful Energy Storage Systems (ESS) for all applications and environments and to meet any power requirement.

The Japanese battery giant and UK manufacturer, GS Yuasa, are set to return to Data Centre World, the UK's largest data centre-specific exhibition next month. Renowned worldwide for their precision engineering and ...

Fully charge the battery before storage and give it a refreshing charge every 3 months. See Section G. Battery Maintenance in Non-Automotive Traction and Deep Discharge Applications. ...
