

Zambia energy storage protection board principle

What is the energy policy of Zambia?

The Energy Regulation Board of Zambia states that in 1994, the Government of the Republic of Zambia promulgated a National Energy Policy to guide the administration of the sector. This was in recognition of the critical role that energy plays in socio-economic development and poverty reduction and the need to enhance that role.

How does ERB regulate the energy sector in Zambia?

ERB, aiming to be a world-class, firm but fair regulator, regulates the energy sector in Zambia with due consideration to world trends. After ten years, ERB has firmly positioned itself and provided leadership in the sector.

What were the first major energy reforms in Zambia?

The first major energy sector reforms in Zambia occurred in the 1990s with the formulation of the National Energy Policy 1994 (NEP 1994), the establishment of the Energy Regulation Board (ERB), the abolishment of the Zambia Electricity Supply Corporation (ZESCO) Limited monopoly and the participation of several private operators.

Can the Energy Regulation Board invest?

(4) The Energy Regulation Board may invest, in a manner that the Energy Regulation Board does not immediately require for the performance of the Energy Regulation Board's functions. 10. The financial year of the Energy Regulation Board shall be the period of twelve months ending on 31st December in each year. 11.

Why is energy security important in Zambia?

The Government of the Republic of Zambia (GRZ) has set ambitious development goals, and energy security is vital to achieving them. The Energy Efficiency Strategy and Action Plan (EESAP), the first in the history of Zambia, with its set of prescribed actions, was developed to support that purpose.

Who is responsible for energy in Zambia?

By virtue of holding the majority shares (two thirds), the Permanent Secretary of the Ministry responsible for energy in Zambia is the Permanent Chair of the TAZAMA Board. ZESCO Limited is a vertically integrated electricity utility, which generates, transmits, distributes and supplies electricity in Zambia.

In Zambia, regulation of gas and petroleum industry is undertaken by the Energy Regulation Board (the "Board"). The Board is created by section 3 of the Energy Regulation Act, Chapter 436 of the Laws of Zambia. The functions of the Board are provided under section 6 of the Act which states that the Board's mandate is to:

Zambia energy storage protection board principle
