What makes INTEC a global leader in EPC services?

With over a decade of success,INTEC has evolved into a global leader in EPC Services,boasting a proven 3.1 GW track record. Our focus on green energy drives us to go further,now offering comprehensive Project Development services and investing in New Energy Solutions.

Who is Intec energy solutions?

INTEC Energy Solutions opens a new office in Mauritius to Shape the future of energy in a dynamic, global environment. INTEC offers exciting opportunities to make a real difference. #teamintec © 2024 INTEC Energy. All Rights Reserved.

What does Intec do?

INTEC offers end-to-end EPC services,ensuring seamless project execution from conception to completion. INTEC combines the latest battery and inverter technology with best-in-class engineering capabilities. INTEC provides strategic insights and expert guidance,ensuring the development of enduring turnkey solutions.

What makes Intec unique?

INTEC draws upon a rich heritage of German experience in solar power plant design and construction. We translate this expertise into cutting-edge smart energy solutions that empower a sustainable future and contribute to global decarbonization efforts. Our commitment extends beyond simply providing solar power.

How is the World Bank helping the Maldives achieve net-zero?

The World Bank has been helping the Maldives transition to clean energy and achieve its 2030 net-zero target. The recent signing of an 11-megawatt solar projectwill see private energy investments deployed in six population centers across the archipelago.

Where is Intec located?

With the expertise of a global workforce,INTEC is establishing itself as a leading player,executing over 180 projects globally and achieving a significant installed and secured capacity of 3.1 GWp. We maintain an active presence across Europe,the Middle East,APAC,Africa,and Türkiye,with our global headquarters located in Germany.

Maldives: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across ...

Maldives -- The Land of Sun, Sea and Sand -- will, over the next few years, go from being a tourist paradise to a small island nation that is leading the way in showcasing energy sustainability to the world.
